TUESDAY, MAY 29, 1849.

☞ There are few things of greater value than a smooth keenly cutting razor, to those of the still bearded race who deem shaving an affair to be performed by themselves at home All such will be gratified to learn that Mr Z S Patten in the Gothic Block has recently introduced into this city a razor of a new pattern and which is just the best article of the kind ever manufactured The brand upon the curiously constructed blade is ' *Jaques Excoultra Ju Sentier*

Mr Patten has also brought here a handsome assortment of fine pocket cutlery of the Waterville Manufacturing Company at Waterbury Connecticut It is very neat and desirable, of high finish and handsome patterns, good workmanship and good stuff

☞ Rev Dr Baird will deliver a free lecture on the Governments of Europe, the characters of the Rulers and the manners of the Courts, at the First Parish Church, on Wednesday, to morrow evening This lecture will be introductory to a course of eight lectures on Europe

These lectures have been received with much favor in Boston and New York and other cities The Doctor probably possesses a more intimate acquaintance with the Courts of Europe and the manners and customs of the people, and with a great multitude of interesting facts not easily obtained, than any other man, and with which he enriches his lectures

District Court.

Hathaway, Justice, presiding

The whole number of actions on the docket of this term is nineteen hundred and fifty five Many were disposed of during the last week by discontinuance, nonsuit, default &c Since our last report, the following have been tried

☞ Mr Fowler a regular course of lectures on Phrenology commences on th s evening at *Market Hall* He is the most noted as well as the ablest Phrenologist in the country, and he reads characters like a book Those who fail of these lectures and of his examinations will fail of hearing the science elucidated by one of its most accomplished masters

☞ The Belfast Signal states that the Road Commissioners of that town have contracted to have all the roads, causeways and bridges in that town exclusive of the village district, kept in repair for five years at one third of the previous cost by surveyors This contract will effect a saving of over $5 000 a year or $25,750 in the five years of its continuance

Instrumental Concert

☞ The Citizens Brass Band will give a concert at Market Hall on Thursday evening next, on which occasion they will bring out the entire skill and power of the Band in the production of a concert which cannot fail to gratify their friends May they have a large company

THE AMERICAN JOE MILLER —

Here is a book of over an hundred pages containing a thousand jokes and one hundred illustrations There is much fun in it, and the odd conceits and genuine sport in the illustrations, lumber the sides and tickle the diaphragm. It is published by H Long & Bro, New York

☞ The Brother Jonathan Newspaper for the Fourth of July is already out and contains much cute and laughable matter about California, in addition to several spirited historical engravings It is worth the nonepence it costs

☞ The Portland Advertiser states that those charming singers the Hutchinson Family whose praise is on all tongues, are shortly to make our city a visit for the purpose of favoring our citizens with a few of their concerts

☞ The First Congregational Church and Society in this city, have, with entire unanimity invited Mr George B Little, of the Senior class in the Theological Seminary at Andover, to become their Pastor

☞ The June number of Holden's Dollar Magazine may be found at Bugbee's Bookstore It is a smart number

☞ The Bath Daily Tribune has been enlarged and now makes a fine appearance

☞ Thanks to Hon Benj Wiggin for Legislative documents

In Italy, the French General marched on the 27th ult from Civita—Vecchia The account of his further progress is furnished by telegraph in despatch published by the government Gen eral Oudinot had set out on his march from Rome, where, according to every information, he was called by the wishes of the people But having met from the foreigners who occupy Rome more serious resistance than he expected, he took up a position at some distance from the city, and was waiting the arrival of the rest of the expedition No date is mentioned but it is probable that General Oudinot was near Rome on the 30th ult

On the 26th, the Roman constituent assembly pronounced the following decree

"The assembly, in consequence of the communications made by the Triumvirate, and after mature and fully reasoned discussion, resolved unanimously to commit to the Triumvirate the office of saving the Republic, and repelling force by force

During the sitting, it was stated by Mazzini that the Triumvirs had received a deputation of three of Gen Oudinot's officers, who on being required to assign a reason for the occupation of Civita Vecchia by an armed foreign force stated that the first reason was to preserve the Roman States from an Austrian invasion, which was already concluded and being prepared That the second, was to ascertain precisely what were the sentiments of the population with regard to the form of government, they judged most convenient, and to seek to put an end to and promote a perfect reconciliation Pius IX, and the Roman people

On the 27th the Constituent Assembly resolved to adhere to their resolution of opposing the entrance of the French into Rome, and continued the preparations for defence

Orders have been issued to undermine the Milvian bridge and the approaching to Rome, on the side of the seaboard Barricades with cannon are erected on the road, and the gates and streets that lead to Civita Vecchia The long convent gallery erected by Pope Borgia between the Castle of St Angelo and the Vatican Palace has been blown up with Powder, and the materials used to block up the avenues of the city

A deputation of the central committee had protested against the invasion, and informed Gen Oudinot that Rome would resist his entrance by force, and blow up the Quirinal, the Vatican, and St Peters, which were already undermined — The General replied that his instructions were imperative, and that he would enter Rome by force, if not quietly received

A letter from an eye-witness gives the following account of the attack on the city

'A company of the first battalion of tirailleurs, sent on to the gates of Rome, being received with musket shots, returned in good order, and soon after, part of the division advanced and penetrated without much difficulty, into the enceinte of the capital, of which the streets were barricaded But they were received by a well fed fire of muskets, and a storm of missiles from the windows and roofs of the houses The twentieth of the line, which was in front, was severely treated A company of voltigeurs was almost totally destroyed At last, seeing the impossibility of continuing a struggle which became fatal, Gen Oudinot ordered a retreat, and the expeditionary corps occupies at this moment a strong position near Rome We had about 200 men killed, of whom some are officers — Amongst them is Mr Harris, aid de camp of Gen Oudinot—and several hundred wounded

The correspondent of the Daily News writing from Rome, on the 3d instant, states that the French did not enter Rome at all, and all the fighting took place outside the walls The gates of San Pancrazio, Portisi and Cavallegieri were the points of attack

A sortie was made by Garibaldi as the French advanced and the latter are said by the correspondent to have lost 600 killed on the spot — There were 452 Frenchmen taken prisoners, many of whom, when crossing the streets, were heard to declare that they had been tricked into the expedition by promises of being led against the Austrians

It is said that in the attack on Rome, Gen Oudinot was nearly taken prisoner The Italian combatants had caught hold of him, and his men had great difficulty in rescuing him

On Thursday, the Paris papers gave no certain information of the entry of the French troops into Rome All we learn is, that the Neapolitans were marching upon that city, and it was said that the French would occupy it before them

The 'Constitutional states, that it was reported the French army had made good their entry into Rome and had taken several prisoners among whom were only five Romans The report however does not appear to rest upon any sufficient authority

Immediately upon the receipt of the news of the French expedition having received a check at Rome, the President addressed the following letter to Gen Oudinot, which was published in the Moniteur

Elyeze, National, May 8th 1849

'My Dear Gen —The telegraphic news announcing the unforeseen resistance, which you have met under the walls of Rome, has greatly grieved me I had hoped that the inhabitants of Rome opening their eyes to evidence would receive, with eagerness an army which had arrived to accomplish a friendly and disinterested mission This has not been the case Our soldiers have been received as enemies Our military honor is injured I will not suffer it to be arraigned For reinforcements shall not be wanting to you Tell your soldiers I appreciate their bravery and take part in what they endure—and that they may always rely on my support, and my gratitude My dear General receive the assurance of my sentiments of high esteem

LOUIS NAPOLEON BONAPARTE

The Austrians Totally Defeated in Three Battles.

In the Liverpool Journal of May 12th, we find an account of three decisive victories obtained by the Hungarians under Georgy and Dembinski over the Austrians In the first battle Jellachich and his Croats were attacked, thoroughly cut up and dispersed Jellachich himself was a fugitive and was last seen in the neighborhood of Essig Next Welden was attacked near Comorn, and totally defeated with great loss Next the army of Walgemuth the third Austrian General was defeated —These three great victories had raised the enthusiasm of the Hungarians to the highest pitch and it was thought that Russia and Austria united, would be unable to put them down

Still later accounts state that an Austrian army which made a stand at Tyrnau had been defeated and compelled to retreat to Presburg

The road to Vienna was open to the Hungarians who unless the Russians advance with great speed, will shortly be in possession of Vienna.

Another account says that the Emperor of Austria still hesitated as to calling in the Russians, and would make another effort to adjust matters with the victorious Hungarians

German Empire.

We subjoin the following particulars illustrative of the disturbed state of Germany, some mention of which was made in the telegraphic account —

Saxony.

On the 14th there were reports at Berlin of an outbreak at Dresden, and of a sanguinary collision between the troops and the people (the latter of course aided by the national guard,) which are confirmed by the arrival of despatches, and by travellers from Dresden It appears that the populace, hearing that the King had refused to accept the German constitution, attacked the palace and arsenal, that the troops were called out and fired, that the communal guard, in lieu of assisting the military, hesitated—were, either purposely or accidentally fired upon by the latter—and then joined the populace, that barricades were thrown up, and that the King, arrested for a while, quitted Dresden, and retired to Konigstein When the train left on the 4th the struggle was not entirely terminated, or at all events, the question was not decided whether there should be a Provisional Government proclaimed by the people, or whether M Carlowitz who left Berlin for Dresden on the 3d, would be permitted to form a ministry in the King's name The account state that thirty four of the populace were killed yesterday, and a proportionate number wounded

Advices from Dresden and Leipsic to the 6th inst. say that a considerable number of the troops of the line including 100 artillery men, had passed over to the insurgents in the former city, and acknowledged the Provisional Government Prussian troops arrived in the capital on the night of the 5th

On the 6th inst the Leipsic board of aldermen resolved to give free railway tickets to all persons desirous of joining in the insurrection at Dresden Numbers proceeded thither On the same day an immense crowd proceeded to the town hall and proclaimed the republic.—The civic authorities of Leipsic have placed themselves under the protection of the central power

A proclamation published by the Dresden Gazette, announces, on the part of the Provisional Government, the determination of some of the troops with the people, and the surrender of the arsenal, which up to the latest accounts was still occupied in common by the artillerymen and the insurgent civic guard

The Senate of the University of Leipsic have forwarded an address to the King, declaring that although some of the provisions of the constitution might give rise to a difference of opinion respecting their beneficial or injurious working, yet on the whole, the German publication in favor of that constitution, and was convinced that it ought to be carried out, if more fatal contests were to be avoided The aspirations of the nation after German unity could not be satisfied by any half concessions

On the 5th hostilities were for the most part suspended—an armistice existing for the greater part of the day

At four the truce was at an end The military moved into their previous positions Anxious groups were gathered in the Neustadt listening for the first cannon shot No attack was made on the side of the military, nor was there any onslaught from the old town which is strongly barricaded, and swarmed with armed people — The number of the insurgents was swelled with adherents, who came flocking in from Pirna, Freiberg, Lommatsch, and Wilsdruff, and before nightfall 200 men came in from Leipsic — These left the railway at Kotschenbroda, there crossed the Elbe, and marched along the left bank to Dresden Weapons the insurgents seem to have in plenty, many were furnished by disarming the communal guard, which showed a disposition to be neutral About 6 the Minister of War arrived from Konigstein furnished, according to report, with full powers, and slightly ed at the prison

On the morning of the 6th the following was posted up in the Neustadt

"The events of yesterday and to-day, so truly painful to my heart, which broke out in a violent attack upon the arsenal, and even upon my palace, while a great part of the communal guard renounced its duty of co-operating for the re establishment of peace and order, oblige me for a while to leave Dresden, and betake myself to the fortress of Konigstein While I scrupled to accept the proposals made to me from many sides to recognise immediately the German constitution proclaimed at Frankfort, I did so from the deepest conviction of the necessity of a temporary suspension of those measures, and consulted purely the welfare of our common country, and by my decision transgressed in nowise the limits of my undoubted perogative

I hope from the earlier so often proved sense of my beloved Saxons for justice and legality, that further serious measures will not be needed, and that I shall soon be enabled to return to my dear city of residence

Care has been taken to provide for the uninterrupted march of the Government during my absence FREDERICK AUGUSTUS,

Countersigned by DR. FRED ZSCHINSKY

Dresden, May 4, 1849 "

A fearful conflict was carried on between the troops assisted by the Prussians and the insurrectionist party, during the 6th The contest between them and the troops seems to be in favor of the latter, who remain faithful to the King The city we regret to state, has been bombarded The Opera house is burnt down and the Picture Gallery is in great danger — Free corps continue to arrive in Dresden from all parts of the country

Early on the morning of the 6th the insurgents commenced an attack on the troops and the contest raged unremittingly till mid day by the troops taking some barricades During the day General Homlus, of the artillery, and some other officers were shot dead The cabinet of natural history has fallen a prey to the flames The military authorities have ordered that all persons taken in arms be immediately shot

On the afternoon of the 6th the Saxon troops, aided by their Prussian auxiliaries, were in possession of the so called New Town the Elbe bridges, the Bruhl terrace, the palace and the arsenal

During the 6th the Hotel de Saxe, and another house near the old Opera, were battered down by the artillery Another Prussian battalion was expected to arrive in Dresden on the evening of the 6th The majority of the insurgents wear red caps and other insignia of republicanism Arnold Ruge, one of the leaders called for a forced levy of 50,000 thalers Several large towns, including Bautzen, Gorlitz and Lobau, have acknowledged the Provisional Government, but Leipsic is still vacillating, so far at least as the authorities are concerned

Up to the morning of the 7th inst, the conflict still continued The Provisional Government have issued a proclamation setting forth that the King had called Prussian soldiers to his aid, in order to oppose his own will to that of the people, laudingthe bravery of the insurgents and urging them to fresh resistance

The Leipsic fair has been closed by the authorities Among the persons killed during the disturbances in Leipsic, on the 6th inst, is Herr Conrard, the consul for the free city of Frankfort The civic guards appear to have put down the Republicans in that town

The rails at Riesa have been laid down again A courier passed through Dresden on the 6th to take authentic news to Prince Albert of Schleswig—not, as has been said, to recall the Saxon troops from Schleswig

A proclamation orders the communal guard to appear on the place of muster on pain of death

Telegraphic despatches received at Leipsic from Magdeburg state that Dr. Foscha, President of the German club at the former town, arrived at Magdeburg on the 6th inst with an extra train, and continued his journey with another extra train to Brunswick, to fetch from thence troops for the support of the communal guard, which had turned against the people

Further reinforcements of troops were despatched from Berlin on the 7th, one detachment left at six in the morning, the other at three in the afternoon On the other hand, the committee of the insurgents have published an address to their German brothers in Prussia, calling on them not to aid the "conspiracy of princes to destroy the liberty of the people

RESIGNATION.

BY HENRY W LONGFELLOW

There is no flock, however watched and tended,
But one dead lamb is there!
There is no fireside, howso'er defended,
But has one vacant chair!

The air is full of farewells to the dying,
And mournings for the dead;
The heart of Rachel for her children crying
Will not be comforted!

Let us be patient! these severe afflictions
Not from the ground arise,
But oftentimes celestial benedictions
Assume this dark disguise

We see but dimly through the mists and vapours,
Amid these earthly damps,
What seem to us but dim, funereal tapers,
May be Heaven's distant lamps

There is no Death! what seems so is transition;
This life of Mortal breath
Is but a suburb of the life elysian,
Whose portal we call Death

She is not dead—the child of our affection—
But gone unto that school,
Where she no longer needs our poor protection,
And Christ himself doth rule

In that great cloister's stillness and seclusion
By guardian angels led,
Safe from temptation, safe from sin's pollution,
She lives whom we call dead!

Day after day we think what she is doing
In those bright realms of air;
Year after year, her tender steps pursuing,
Behold her grown more fair

Thus do we walk with her, and keep unbroken
The bond which nature gives
Thinking that our remembrance, though unspoken,
May reach her where she lives.

Not as a child shall we again behold her;
For when with raptures wild
In our embraces we again enfold her,
She will not be a child;

But a fair maiden, in her Father's mansion
Clothed with celestial grace;
And beautiful with all the soul's expansion
Shall we behold her face!

And though at times, impetuous with emotion
And anguish long suppressed,
The swelling heart heaves moaning like the ocean
That cannot be at rest,

We will be patient! and assuage the feeling
We cannot wholly stay;
By silence sanctifying, not concealing
The grief that must have way

TAKE this method of answering the frequent inquiries by letter and otherwise, as to my opinion upon the various notices through the papers of the Stationary Knife Planing Machines attempted to be palmed off upon persons ignorant of their true worth I would state for the information of the inquirers that they will find substantially the machine now offered by several pretending inventors described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham in the year 1791 A like machine was patented in this country by one Kugler some 16 years since — One of the machines was put up at Philadelphia and abandoned some 10 years since and another one put up by Albert Richards of West Troy N Y and abandoned about the same time It ought to satisfy the public to know that after 58 years' experimenting upon these machines not one in use is of any value for the purposes contemplated

I will furnish a Stationary Knife Machine equal to any now in use or to any offered by the pretending inventors at the cost of the machine and 5 per cent for my trouble JAMES G WILSON

Holden's Alterative and Tonic Mixture,

IS the best combination known for changing the unhealthy secretions of the Stomach, and giving strength to that organ and for removing many troubles which are often attributed to impurity of the blood.

Its success is that of a mild Alterative and Tonic restoring health and strength often without producing any sensible evacuation, and without leaving behind any unpleasant effect on the constitution

By its use the appetite becomes regular and good, digestion perfect, sick head ache and many nervous disturbances growing out of imperfect digestion are generally cured persons of debilitated constitutions become healthy and strong by its use

By reason of the sympathy between the stomach and the skin, many diseases of the latter grow out of a morbid action of the former even when the ordinary symptoms of Dyspepsia are wanting and are cured by this medicine

Many troubled children, supposed to arise from worms are caused by a deranged state of the stomach and are removed by its use Persons both adults and children left feeble by protracted illness on the same principle are restored to health and vigor by taking it.

It contains no poisonous ingredient, and cannot in any case do harm

Home Testimony.

We, the undersigned, have ourselves or in our families, used Holden's Alterative and Tonic Mixture and are satisfied it is a very valuable preparation for the cases for which it is recommended.

I have sold a large number of Holden's Alterative and Tonic Mixture the past year in this city and have found it to give more general satisfaction than any article I have sold for the purposes for which it is recommended, and have received many verbal assurances of its extraordinary efficacy from persons whom I feel confident could not be deceived.

McKENNEY'S

COSSACK SALVE!!

An Invaluable Remedy

FOR Fever Sores, Rheumatism, Swelling of the Feet and Limbs Swelling of the Tonsils or Sore Throat, Chronic Eruptions of the Skin, and all Scrofulous Diseases, Rigid Cords occasioned by Colds or Strains, Stiff Neck, Chilblains or Chapped hands, Sore or Inflamed Breast, Weakness or Pains in the Stomach, Piles, Corns, Warts, and Common Sores and Cuts and Bruises of all kinds

In bringing this article before the Public, we are aware that we labor under no small disadvantage amidst the multitude of "All-Healing Ointments and "Panaceas" that are now advertised as the "*most effectual*" and "*certain cures*" for all diseases indiscriminately, to which man or animals are subject

A history of this Salve, and the wonderful cures it has effected in the above complaints, will be found in a pamphlet accompanying each Box—a reference to which is invited before purchasing.

We would only add, that we have undertaken the task of manufacturing the above named Salve at no inconsiderable trouble and expense, not as much as a matter of speculation and pecuniary benefit, as in compliance with the earnest and repeated solicitations of personal friends, and those who have experienced its wonderful medicinal and all-healing properties.

To say, indeed, that we do not expect to realize a handsome remuneration for our services, would be alike useless and untrue But we flatter ourselves that it, forsooth, we are richly paid, and the article soon, very soon, has an extensive sale—the Public are receiving a full and ample equivalent

As we have already intimated, we do not and shall not call to our aid the empty "*puffing of the Press*," or the bought certificates" of individuals, and shall make use of them only so far as they have been, or hereafter may be entirely *voluntary* and *unsolicited*

The Salve is now before the Public!

They, and they alone, will decide upon its real virtues and medicinal properties o say less were injustice to ourselves—to say more would be superfluous

Here are some of the many Certificates —

The subscriber was afflicted with a Fever Sore upon his leg for about six years, and in the winter of 1845 I commenced swelling from the ankle to the knee After using many remedies without success, I applied some Salve obtained of Mr A M McKenny, and continued its application until I had used six bottles, which entirely cured me, and I have had no return of the disease since I would also say that I know the above Salve to be a cure for Corns, one of my family having used it for this purpose with complete success

DANIEL SEAVEY

Dexter, (Maine) May, 1846

This certifies that one of my sons having been afflicted with a Fever Sore for more than a year, and having tried various means to effect a cure, without success which cost me about forty dollars, I bought 14 oz of JONATHAN McKENNEY'S SALVE, which effected an entire cure in less than two months SIMEON MARSTON

Gray, May 11, 1846

BANGOR, June 5, 1846

Mr McKenney—In going into the woods in the autumn of 1845, with the charge of quite a number of men, for the winter lumbering operation, I was induced to take a few bottles of your Salve, it having been recommended to me as one of the best remedies for accidental Cuts and bruises, and I found indeed, to my great satisfaction, that it was an invaluable article I also made application of it in cases of Cuts, Sprains and Bruises upon me cattle, and found it equally beneficial It can truly be called the All Healing Salve

CONSUMPTION CURED!

Buchan's Hungarian Balsam of Life,

THE GREAT ENGLISH REMEDY FOR

COLDS, COUGHS, ASTHMA and CONSUMPTION

BUCHAN'S HUNGARIAN BALSAM, the Great English Remedy for Pectoral and Pulmonary diseases, still stands unrivalled and unsurpassed as the most efficient, agreeable, and effectual curative of these formidable complaints, now known to the civilized world

Three years time of trial in the United States, during which time it has been distributed from Maine to Florida, has only served to establish its pre-eminent merit in all parts of the country, as the great and only RELIABLE REMEDY in the worst cases of Pulmonary disease, and the best and most agreeable curative of all the slight forms of colds, coughs and inflammations that can possibly be need

INCONTESTIBLE PROOFS

Of the Efficacy of this Balsam in the worst forms of Consumption

IMPORTANT MEDICAL TESTIMONY.

DR. BRADLEE—Dear Sir The Hungarian Balsam of Life, beyond all question, is a most perfect and admirable preparation for diseases of the Lungs. I have used it in my family, and in my professional practice for more than two years with the most uniform and entire success, in cases of *severe Pulmonary disease*, and I can conscientiously recommend it to all who are afflicted as the most certain remedy for such diseases with which I am acquainted Yours respectfully,

FREDERIC T. STORER, M D

Saco, Me, May 22, 1846.

Reliable Evidence of the Efficacy of BUCHAN'S HUNGARIAN BALSAM.

[From the Christian Freeman.]

While we recommend quackery, we are always pleased to give credit for that which is truly useful, and to give information which may benefit others A few days ago a brother of ours, from Norway, Me., came into our office in comfortable health, whom we did not expect to see again on earth. We received a letter a few weeks since, from another brother resident in the house with him, saying that he was confined to his bed and could not probably continue but a short time. Judge then of our surprise when we saw him enter our office He has a slight cough remaining, or it would be natural that he should have, until he has had further time for acquiring strength of lungs. But he is in comfortable health. The following letter which he addresses to the general Boston Agent for the medicine which has restored him so wonderfully, will show what medicine has been the instrument of the good work

Boston, Feb. 16, 1847

Dr D P Bradlee—Sir—I cannot refrain from saying a word to you in commendation of "Buchan's Hungarian Balsam of Life" Here is a plain statement of facts in relation to my case, and if they are of any service in inducing the sick to seek relief at the source from whence I obtained it, I shall be thankful

My residence is Norway, Me. Three years ago last fall I took a violent cold, which left a cough of the most aggravated kind, accompanied by a severe pain in the left side. Last June I had become so feeble that I was obliged to quit all work, and was confined to the house and about four weeks after During that time I received the best medical attendance, and tried nearly all the medicines which are recommended in such cases, but could find no relief, but grew worse, and for the last three weeks was confined to my bed. Two of my physicians gave me over as past recovery But as fortune would have it, I heard of the Hungarian Balsam, and immediately procured a bottle This gave me instant relief, and six bottles have broken up my cough, and placed me in a situation to resume, with advancing health, my usual occupation.

BE WISE TO-DAY

Delay in any case of Consumptive tendency, is emphatically Death, under all and every treatment The Hungarian Balsam is a great ANTIDOTE, as well as CURATIVE. If you have any symptoms above described, be advised in time.

Sold in large bottles at only one dollar per bottle.

Fancher's Salve

THE CURIOSITY. A Tale by G. P. R. JAMES.

oct 30 G & G W FANCHER & CO

CAUTION EXTRA.

A man by the name of SHARP has engaged with a young man of the name of S P Townsend, and uses his name to put up a Sarsaparilla, which they call Dr. Townsend's Sarsaparilla, denominating it *GENUINE* Original, etc. This Townsend is no doctor, and never was, but was formerly a worker on railroads, canals, and the like. Yet he assumes the title of Dr., for the purpose of gaining credit for what he is not. This is to caution the public not to be deceived, and purchase none but the *GENUINE ORIGINAL OLD* Dr. Jacob Townsend's Sarsaparilla, having on it the Old Dr's. likeness his family coat of arms, and his signature across the coat of arms.

Principal Office, 102 Nassau st., New York City

DR. JACOB TOWNSEND,

THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla.

Old Dr Townsend is now about 70 years of age and has long been known as the *AUTHOR* and *DISCOVERER* of the *GENUINE ORIGINAL "TOWNSEND SARSAPARILLA"* Being poor he was compelled to limit its manufacture, by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth, and known its value It had reached the ears of many, nevertheless, as those persons who had been healed of sore diseases, and saved from death proclaimed its excellence and wonderful

HEALING POWER.

Knowing, *many years ago*, that he had, by his skill, science and experience, devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice, when its inestimable virtues would be known and appreciated This time has come the means are supplied only

GRAND AND UNEQUALLED PREPARATION

Is manufactured on the largest scale and is called for throughout the length and breadth of the land especially as it is found incapable of degeneration or deterioration

Unlike young S P Townsend's it improves with age, and never changes, but for the better because it is prepared on *scientific principles* by a *scientific man* The slightest knowledge of chemistry, and the latest discoveries of the art, have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla The Sarsaparilla root as is well known to medical men, contains many medicinal properties and some properties which are inert or useless, and others, which if retained in preparing it for use produce *fermentation* and acid which is injurious to the system. Some of the properties of Sarsaparilla are so *volatile*, that they entirely evaporate and are lost in the preparation, if they are not preserved by a *scientific process*, known only to those experienced in its manufacture. All never these *valuable principles*, which fly off in vapor or as an exhalation, under heat, are the *very essential medical properties* of the root, which give to it all its value

Any person can boil or stew the root till they get a dark colored liquid which is more from the coloring matter in the root than from any thing else, they can then strain this insipid or vapid liquid sweeten with sour molasses and then call it "SARSAPARILLA EXTRACT or SYRUP," But such is not the article known as the

GENUINE OLD DR. JACOB TOWNSEND'S SARSAPARILLA

This is so prepared that all the inert properties of the Sarsaparilla root are first removed, every thing capable of becoming acid or of fermentation, is extracted and rejected then every particle of medical virtue is secured in a pure and concentrated form, and thus it is rendered incapable of losing any of its valuable and healing properties Prepared in this way, it is made the most powerful agent in the

Cure of innumerable diseases.

Hence the reason why we hear commendations on every side in its favor by men, women, and children. We find it doing wonders in the cure of *CONSUMPTION, DYSPEPSIA*, and *LIVER COMPLAINT* and in *RHEUMATISM SCROFULA PILES COSTIVENESS* all *CUTANEOUS ERUPTIONS PIMPLES BLOTCHES*, and all affections arising from

IMPURITY OF THE BLOOD.

It possesses a marvellous efficacy in all complaints arising from *Indigestion*, from *Acidity of the Stomach* from unequal circulation, determination of blood to the head palpitation of the heart, cold feet and hands cold chills and hot flashes over the body It has not its equal in *Colds* and *Coughs*, and promotes easy expectoration and gentle perspiration relaxing stricture of the lungs throat, and every other part

But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of

FEMALE COMPLAINTS.

It works wonders in cases of *Whites Ulcers or Bearing down Falling of the Womb Obstructed Suppressed or Painful Menses, Irregularity* of the menstrual periods and the like, and is as effectual in curing all the forms of *Kidney Diseases*

By removing obstructions, and regulating the general system, it gives tone and strength to the whole body, and thus cures all forms of

Nervous diseases and debility,

and thus presents or relieves a great variety of other maladies, as *Spinal irritation Neuralgia, St Vitus Dance Sneezing, Epileptic Fits Convulsions* &c

It cleanses the blood, excites the liver to healthy action tones the stomach, and gives good digestion, relieves the bowels of torpor and constipation allays inflammation purifies the skin, equalises the circulation of the blood, producing gentle warmth equally all over the body, and the insensible perspiration, relaxes all stictures and tightness, removes all obstructions, and invigorates the entire nervous system. In no liable then

The medicine you pre-em nently need!

But can any of these things be said of S P Townsend's inferior sar cle? This young man's liquid is not to be

COMPARED WITH THE OLD DR'S.

because of one GRAND FACT that the one is INCAPABLE OF DETE

NEVER SPOILS,

while the other DOES *souring fermenting*, and *blowing the bottles* containing it into fragments, the sour, acid liquid exploding and damaging other goods' Must not this horrible compound be poisonous to the system!—*What! put acid into a system already diseased with acid!* What causes Dyspepsia but acid? Do we not all know that when food sours in our stomache, what relieves it produces? flatulence, heartburn palpitation of the heart, liver complaint diarrhœa, dysentery, colic, and corruption of the blood! What is Scrofula but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin, Scald Head, Salt Rheum, Erysipelas, White Swellings, Fever Sores, and all ulcerations internal and external? It is nothing under heaven but an acid substance, which sours, and thus spoils all the fluids of the body, more or less. What causes Rheumatism but a sour or acid fluid, which insinuates itself between the joints and elsewhere irritating and inflaming the delicate tissues upon which it acts? So of nervous diseases, of impurity of the blood, of deranged circulations, and nearly all the ailments which afflict human nature

Now is it not horrible to make and sell, and *infinitely worse* to use this

SOURING, FERMENTING, ACID "COMPOUND" OF S. P. TOWNSEND,

and yet he would fain have it understood that Old Dr Jacob Townsend's *Genuine Original Sarsaparilla* is an IMITATION of his inferior preparation!!

Heaven forbid that we should deal in an article which would bear the most distant resemblance to S. P. Townsend's *articles!* and which should bring down upon the Old Dr. such a mountain load of complaints and criminations from those to whom we have sold, and purchasers who have used S P Townsend's FERMENTING COMPOUND

We wish it understood, because it is the *absolute truth*, that S. P. Townsend's article and Old Dr. Jacob Townsend's Sarsaparilla are *heaven-wide apart*, and *infinitely dissimilar*, that they are unlike in every particular having not one single thing in common

As S P Townsend is no doctor, and never was, no chemist, no pharmaceutist—knows no more of Medicine or disease than any other common, unscientific, unprofessional man, *whose genius or ambition* prompts him that they are receiving a pass as scientific medicine, containing all the *virtues* of Sarsaparilla, and nothing it, and which are incapable of changes which render them the AGENTS of *souring* instead of *curing*.

But what should be expected of a man who knows nothing of the art of medicine requires a person of some experience to cook and serve up even a common dessert meal. How much more should one be in case the person who manufactures medicine is ignorant

WEAK STOMACHS AND ENFEEBLED SYSTEMS

should know well the medical properties of *Roots*, the most valuable of becoming the most healing and strengthening agents to the human system, and how to adapt remedies to their diseases!

It is an great truth upon the unfortunate, to pour balm into wounded bosoms [illegible] which he with the assisting hand, to inspire hope, [illegible] and vigor upon the troubled and broken, and to [illegible] this is ONE OF THE GREAT BLESSINGS BROUGHT and [illegible] in using the

Genuine Original Townsend Sarsaparilla

Look out for Counterfeits!

Some are coated with sugar, others are made so resemble, in outer appearance the original article. The safest course is to purchase from the Agents only one or more of whom will be found in every town and county in the State

THE ORIGINAL AND ONLY GENUINE INDIAN MEDICINE.

It is not our wish to trifle with the health of the community We desire to be governed by a sacred regard to truth in whatever is here stated in relation to this extraordinary medicine, and it is this feeling of sincerity and good faith which prompts us again and again to call attention to it We believe that no article has ever been discovered that has conferred a greater amount of benefit on the community, and the more it is known the better it is appreciated

SAVE YOUR DOCTOR'S BILLS

Thousands of dollars of doctor's bills have been saved by the use of this medicine, and there is little doubt that if it were more generally resorted to than it is, sickness would in most cases be prevented

NEW YORK, April 17, 1848

This is to certify that I have used Wright's Indian Vegetable Pills in my family for more than four years, and as a family medicine believe them the best in the world During that period I have had no occasion for a physician, though my daughter and wife have been very low several times WILSON TREADWELL,

Rivington Street

NERVOUS DEBILITY—LOSS OF ENERGY

Wright's Indian Vegetable Pills speedily and permanently restore the declining powers of the human body This may at first be doubted, but no fact is better established Those who use the *so distant* Sarsaparillas for this purpose, overlook, in doing so, a medicine far less expensive and more effectual

Clymer, Chautauque Co N Y, Oct 5, 1848

Dr. Wm Wright—Sir—For the last three or four years I had been gradually running down, and finally became so weak that I was unable to perform my usual labor I was advised to try your Indian Vegetable Pills, and I am gratified to state that by the use of three or four boxes I began to feel like myself again, and am now thoroughly cured

From my own experience I can commend your Pills to the afflicted with confidence that they will be found a medicine of great efficacy and value. Yours, truly, JOHN CLEAVELAND

WELL SPOKEN OF BY ALL
